SITE ASSESSMENT DECISION - EPA REGION 3

Site Name: AMTRAK WILMINGTON REFUELING FACILITY EPA ID#: DE0984075432

Alias Site Names: _____

City: WILMINGTON County or Parish: NEW CASTLE State: DERefer to Report Dated: PA: 2/5/93 SI: _____ Other (report type & date): _____Report developed by: DE DEPT OF NATURAL RESOURCES + EC

DECISION:

1. Further Action under Superfund (CERCLA) is not appropriate or required because:

1a. Site Evaluation Accomplished (SEA).

1b. Action Deferred to:

RCRA
NRC☒ 2. Further Investigation Needed Under Superfund: 2a. Priority: ☐ Higher ☒ Lower2b. Activity
Type:☒ PA
☒ SI☐ ESI
☐ evaluate HRS score☐ Other: _____

DISCUSSION/RATIONALE:

OIL STAINING + CONTAMINATION THROUGHOUT XXXX IS APPARENT. HOWEVER THERE ARE NO SIGNIFICANT TARGETS (DRINKING WATER, SOIL EXPOSURE, FISHING) THREATENED. THE SITE STAYS BECAUSE OF OBSERVED CONTAMINATION OF AN OLD WETLANDS AND POTENTIAL CONTAMINATION OF THE BRANDY WINE CREEK (A FISHERY). PROBLEM AT PRESENT IS OIL LEACHING FROM GROUND, WHERE IT WAS SPILLED LONG AGO, INTO WETLANDS + TRIBUTARY. THERE ISN'T ANY EVIDENCE OF ANY OTHER HAZARDOUS WASTE EXCEPT OIL. SI COULD BE DONE TO EXAMINE CONDN. OF WETLANDS + TRIBUTARY BUT IT'S NOT A PRIORITY.

Report Reviewed and Approved by: _____ Signature: _____ Date: _____

Site Decision Made by: MIKE GIURANNA Signature: Mike Giuranna Date: 5/11/93

Instructions: Use of EPA Form #9100-3

1) **Filling blanks and boxes using a wordperfect version of the form:** This is most easily done in the 'typeover' (or insert) mode in wordperfect. Begin by hitting the 'insert' key on your keyboard, move to the line or box desired, and begin typing. The boxes are set up to give bold characters, and the line characters (" ") ensure the form keeps a constant format. The form uses wordperfect version 5.1 and a 'universal scalable' font; you may need to revise printer setup to accommodate this. The diskette provided contains 2 versions of this form in Wordperfect 5.1 format (see point 3 below). These files have a write protection code.

2) **Filling Decision box:** The evaluator must choose one decision option (#1 or #2). Once chosen, you must then indicate the following detail under the selected option:

Option 1 - choose either 1a or, for deferral, both 1a and 1b.

Option 2 - choose one box from 2a, and choose an additional box from 2b.

3) **Discussion/Rationale Section:** The evaluator should enter comments as appropriate. To facilitate this, two versions of this form are provided in wordperfect files. Version "SA-DECIS.#1" contains the version found on the front side of this form. You can complete this form in writing or by using the 'typeover' mode when entering discussion text using wordperfect. Version "SA-DECIS.#2" has the exact same form, except the lines have been deleted from the discussion box. This box was created using 'Tables' in wordperfect 5.1, thus it can expand as new lines are added or scrolled within the box. The evaluator can simply enter text in the normal edit mode in wordperfect.

4) **Use of 'not applicable - (n/a)':** This can be entered wherever appropriate. For example, in cases where EPA wants to re-evaluate a previous decision based on new information, the evaluator may enter 'N/A' for PA and SI reports, and 'see comment' for the "Other (report & type and date)" line. The 'see comment' entry could refer to explanation of the new information in the Discussion/Rationale section.

5) **Signature Boxes:** The Regionally designated person responsible to review and approve a final report should sign and date the "Report Reviewed and Approved by" line. If a Region uses a stamp to document report approval, this box should simply indicate 'see report'. The designated person responsible to decide upon a future action should complete the 'Site Decision Made by' line (note that this can be the same person who reviewed and approved a report).

Explanation of Entries

- 1) Site Name = same name as listed in CERCLIS
- 2) EPA ID = same as CERCLIS ID number
- 3) Alias site names = self explanatory
- 4) City, County or Parish, State = same as listed in CERCLIS
- 5) Report date = if applicable, date of final report associated with the site decision
- 6) SEA = Site Assessment Accomplished, the successor of No Further Remedial Action Planned (NFRAP)
- 7) RCRA = the Resource Conservation and Recovery Act (RCRA) program of EPA
- 8) NRC = the Nuclear Regulatory Commission
- 9) PA = Preliminary Assessment
- 10) SI = Site Inspection
- 11) SIP = Site Inspection Prioritization
- 12) ESI = Expanded Site Inspection
- 13) Regional Decision Team - a group of EPA Regional managers who evaluate the need for site assessment and response action at a site and formulate appropriate steps to address those needs.
